- Introduction: policy
- Who's who: international heritage cooperation partners
- Q&A

# | *Heritage in International Cultural Policy 2021-2024*

Heritage contributes to mutual understanding, especially where there is a shared history. Partnerships with other countries, especially those with which the Netherlands shares a past, colonial or otherwise, will therefore continue to be important for our cultural policy in 2021-2024. We are focusing on sustainable preservation, heritage conservation and accessibility of heritage sites and archives, with scope for different perspectives.
