About the Database

Each year, we add international cultural activities to our Cultural Database, covering work across all artistic disciplines by makers based in or from the Kingdom of the Netherlands. This helps us build a clearer picture of the sector and understand the cultural impact of the Netherlands in other countries. We collect information from Dutch cultural funds, organisations, embassies and makers, as well as through our own desk research. We thank our partners for their contributions to the database.

Database Contact: Erin Chang, e.chang@dutchculture.nl

Find out more | Disclaimer

Makers refers to cultural and creative professionals, organisations and artists from or based in the Kingdom of the Netherlands
